

The JP Institute Evolutionary Team Hygiene 2-Day Workshop at the BEACH!!

“Healthier Patients/Healthier Practice”

November 8,9 2024

Earn 14 Hours- ADA CERP- FAGD/MAGD CEU

This ***two-day course*** is currently held in a conference room overlooking the ocean at the Tamarack Beach Resort and Hotel in Carlsbad, California.

As you know, the level of success of today’s dental practice directly stems from having a well-trained and enthusiastic team that fully understands ***oral systemic health*** and delivers that message and care to all patients! The JP Institute Curriculum empowers dental team members with the skills and knowledge essential to both practice and personal success. This course provides an opportunity for you and your clinical team to develop strong ***continuity*** for diagnosis, comprehensive screenings and assessment, treatment planning to incorporate oral systemic health, advanced verbal skills, communication and more.

Get the facts, treat scientifically! We are looking forward to seeing you and your team soon!

Sincerely,

Jan Lazarus RDH, CHC

The JPI “Evolutionary Team Hygiene” workshop is designed to empower dental teams to achieve the next level of understanding and real-world/real-time application of The JP Institute’s curriculum, research, and evidence-based science within the dental community.

The course consists of six (6) modules:

- Merging Restorative/Aesthetic and Periodontal Care with Integrated Treatment Planning that Supports Treating a ***Biofilm Disease*** and ***Oral Systemic Health***
- Communication for Advanced Case Acceptance
- Dental Disease Recognition and Risk Assessment-Salivary Diagnostics
- Integrated Business Systems for Comprehensive Care
- Technology (Microsonics, Laser, Air Polish and Product Update to Support Superior Clinical Results, Saliva Testing, Intro to Chairside Testing for Inflammatory Markers)
- Merging Oral Systemic Medical Model with Comprehensive Care and Case Acceptance

Incorporated into each module are sub-topics and interactive class sessions:

- Hygiene Procedure Distinctions – Incorporate Restorative and Aesthetic Refine Pre-Diagnosis with ***Updated Science*** and ***Salivary Diagnostics***
- Closely Monitored System – Reduce Openings in the Schedule
- Treatment Planning for Comprehensive Care and Oral Systemic Health (Case Studies)
- ***Implant Maintenance*** using Updated Technologies and Product integration,
- “Steps to Optimum Health,” The Microbiome, Nutrition, ***Nitric Oxide***
- Introduction to ***Myofunctional Therapy*** and Sleep and Breathing Disorders
- Support Roles for Restorative/Aesthetic Enrollment from Hygiene
- Time Management – How to Incorporate Science, Technology, and Comprehensive Case Presentation- Risk Assessment – Incorporating the Medical Risk Model
- Down to a Science – Step by Step Guide for Successful Case Presentation
- Guidelines for Advanced Communication Skills for the Oral Systemic Practice
- Managing Patient Needs and Expectations, Collaboration with Healthcare Professionals
- Refinement of the ***Doctor/Hygiene Exam***
- Business Systems – Hygiene Department Leadership and Profit Potential
